Aurigon GmbH
Planegger Strasse 9a
81241 Munich
Germany

Phone: +49 89 7807 200 100
E-Mail: info@aurigon.eu
Website: www.aurigon.eu

Aurigon is an independent CRO dedicated to non-clinical services. Since 2000 we are a trusted partner in drug-development by providing a full range of experimental services in pharmacology, bio-/analytics, ADME and toxicology. We support our clients with GxP consultancy/trainings. Headquartered in Munich, we operate state-of-the-art GLP/ISO-compliant testing facilities at the Aurigon Labs LTD near Budapest.

BSL BIOSERVICE Scientific Laboratories Munich GmbH
Behringstrasse 6 / 8
82152 Planegg/Munich
Germany

Phone: +49 89 8999 749-0
Mobile: +49 171 3026950
E-Mail: rtorka@bioservice.com
Website: www.bioservice.com

BSL BIOSERVICE MUNICH is GLP-certified CRO and preferred partner of Eurofins. Our global scientific network offers services from discovery to market approval using a broad range of in-vitro and in-vivo safety tests for Pharmaceuticals, Chemicals, Medical Devices, Agrochemicals, and Food. Customer orientation, quality and flexibility are part of our DNA. A highly experienced team of scientists supports acceptance by authorities.

CD4 Therapeutics GmbH
Kiefernweg 38
82319 Starnberg
Germany

Phone: +49 160 2517 541
E-Mail: ml@cd4therapeutics.com
Website: www.cd4therapeutics.com

CD4 Therapeutics translates Nobel Prize-recognized Treg biology into first-in-class therapies restoring immune tolerance. Its lead asset, Tregalizumab, the only clinically validated selective Treg activator via a unique CD4 epitope, enables disease-modifying treatment across autoimmune, inflammatory, and transplant-related diseases.

Ethis GmbH
Sammelweisstrasse 3
82152 Planegg
Germany

Phone: +49 89 8955 7880
E-Mail: info@ethris.com
Website: www.ethris.com

Ethis is a clinical-stage biotech company pioneering a new path from genes to therapeutic proteins using our proprietary non-immunogenic mRNA and lipidoid nanoparticle platform. As a global leader in delivering stabilized mRNAs directly to the respiratory system, we are rapidly advancing our pipeline of immunomodulation therapies and mucosal vaccines, with the ultimate goal of improving patients' lives.

Fördergesellschaft IZB mbH
 Am Klopferspitz 19
 82152 Planegg/Martinsried
 Germany

Phone: +49 89 552 7948-0
 E-Mail: info@izb-online.de
 Website: www.izb-online.de

The IZB is one of Europe's leading biotech incubators. Headquartered in Martinsried near Munich, it is home to around 50 start-ups and offers premium lab space plus comprehensive campus services. Founders benefit from a powerful network of leading research institutions, biotech and pharma companies, as well as venture capital investors.

Fraunhofer Institute for Toxicology and Experimental Medicine ITEM
 Personalized Tumor Therapy
 Am Biopark 9
 93053 Regensburg
 Germany

Phone: +49 941 2984 80-52
 E-Mail: Lukas.woehrl@item.fraunhofer.de
 Website: www.item.fraunhofer.de/ptt

The Division for Personalized Tumor Therapy at the Fraunhofer Institute for Toxicology and Experimental Medicine ITEM supports clinical oncology strategies with tailored insights from patient-derived materials and medical data. Leveraging a nationwide clinical network, translational expertise, and state-of-the-art technologies, we help partners de-risk their development programs and improve decision-making.

GBA Pharma GmbH
 Anna-Sigmund-Strasse 7
 82061 Neuried
 Germany

Phone: +49 89 899 229-142
 Mobile: +49 173 889 4251
 E-Mail: sales@gba-pharma.com
 Website: www.gba-group-pharma.com

GBA Pharma provides specialized analytical services for pharmaceutical, biopharmaceutical, and research organizations worldwide. Operating from two GMP-certified, FDA-inspected sites in Germany, we test drugs, biologics, medical devices, raw materials, and packaging using advanced techniques including HPLC, GC, mass spectrometry, microbiology, E&L, and stability studies with 20+ years experience.

Granzer Regulatory Consulting & Services GmbH
 Kistlerhofstrasse 172C
 81379 Munich
 Germany

Phone: +49 89 780 6898 0
 E-Mail: blesse@granzer.biz
 Website: www.granzer.biz

Granzer Regulatory Consulting & Services offers support in all phases of drug and device development. From defining the right development strategy to submitting your marketing authorisation application, all the way through to approval and beyond.

We have been involved in many "firsts", such as the first peptide-based vaccine developments, first m-RNA developments, CARTs, CRISPR/CAS and the first Covid vaccine marketing authorisation.

Labor LS SE & Co. KG

Mangelsfeld 4, 5 , 6
97708 Bad Bocklet
Germany

Phone: +49 9708 9100-0
E-Mail: service@labor-ls.de
Website: www.labor-ls.de/en/

As one of Europe's largest independent contract laboratories, Labor LS provides cGMP-compliant analytical services to over 1,000 clients in microbiology, biochemistry, molecular biology, and chemical-physical analysis. With around 700 experts and 7,000 m² of laboratory space, LS performs method validations, verifications, and routine testing.

leon-nanodrugs GmbH

Am Klopferspitz 19
82152 Planegg
Germany

E-Mail: info@leon-nanodrugs.com
Website: www.leon-nanodrugs.com

leon-nanodrugs (LEON) specializes in the development and commercialization of scalable nanoparticle manufacturing technologies from discovery to GMP. Powered by its patented FR-JET® mixing technology, LEON enables formulation-adaptive processes that reduce scale-up risk and ensure consistent product quality across development and commercial manufacturing.

Project Pharmaceuticals GmbH

Fraunhoferstrasse 22
82152 Martinsried
Germany

E-Mail: info@project-pharmaceutis.com
Website: www.project-pharmaceutics.com

PJP is a CRO specialized in formulation & lyophilization process development for injectable drug products, offering a short start-up period & reliable timelines. We apply innovative, quality-by-design based concepts of pharmaceutical development acc. to ICHQ8 & other guidelines. We support global clients in developing a consistently high-quality pharmaceutical product that is transferable, scalable & manufacturable under GMP conditions.

Staburo GmbH

Aschauer Strasse 26a
81549 Munich
Germany

Phone: +49 89 5527 1520
E-Mail: info@staburo.de
Website: www.staburo.com

Staburo GmbH is a data science company. Our core competencies include Clinical Statistics, Translational Medicine & Biomarkers, Phase I & Pharmacokinetics/-Dynamics, Data Transparency & Disclosure Services, Health Technology Assessment and Bioinformatics. We work with international pharmaceutical companies, CROs, biotech companies and medical device manufacturers.

TQ Therapeutics GmbH
 Fraunhoferstrasse 1
 82152 Martinsried-Planegg
 Germany

Phone: +49 151 6508 3280
 E-Mail: info@tqtherapeutics.com
 Website: www.tqtherapeutics.com

TQ Therapeutics develops a hybrid in vivo CAR-T platform enabling ultra-fast 6-hour cell therapy processing at the point-of-care. The CELLfinity platform enables modular generation of infinite CGT clinical programs for scalable, accessible autologous mRNA T-cell therapeutics across indications. The process is enabled by TQx's affinity/column-based T-cell selection technology for CD3+ T-cell isolation from whole blood.

Trophic Communications GmbH
 Herzog-Wilhelm-Strasse 1
 80331 Munich
 Germany

Phone: +49 89 3703 3840
 E-Mail: info@trophic.eu
 Website: www.trophic.eu

Trophic Communications serves as a strategic partner for all aspects of communications for life science companies. We apply a deep understanding of both the science and business of drug development and the capital needed for success. Based on breadth and depth of experience, Trophic has become the go-to advisory for presenting corporate stories and scientific concepts.

Vivara Life Sciences
 Cosimastrasse 121
 81925 Munich
 Germany

Phone: +49 176 8908 3309
 E-Mail: info@vivaralifesciences.com

Vivara Life Sciences helps biopharma bring more treatments to patients through sharper GTM strategy and faster, lower-risk clinical development. We combine deep China and Western market expertise with lean, senior-led support to improve GTM decisions, de-risk trials with earlier human data at lower costs and accelerate value inflection.
