EXHIBITOR	ADDRESS	DESCRIPTION
C369  ALPHA AFFINITY	Alpha Affinity GmbH Amalienstraße 71 DE-80796 München E-Mail: info@alpha-affinity.com Website: www.alpha-affinity.com/	With Alpha Affinity's Sales and Capture Research Assistant, defense OEMs and suppliers reduce manual research effort, improve early positioning, and prepare stronger proposals. Based on a proprietary defense knowledge graph, the system ensures structured, auditable evaluation of customers, partners, competitors, and programs under human control.
C369  bebob defense	bebob defense, a division of bebob factory GmbH Hoeglwoerther Straße 350 DE-81379 München Phone: +49/89/8563485-0 E-Mail: info@bebob-defense.de Website: www.bebob-defense.de	Since 1995, we have been developing solutions in which reliability and safety are paramount - today, hundreds of thousands of our batteries are deployed worldwide. From initial concept and prototyping through testing, validation, and series production, every product is manufactured in the greater Munich area, using exclusively certified components.
C369  BROADCOM®	Broadcom Inc. Gertraud-Kaltenecker-Straße 1 DE-93049 Regensburg Phone: +49/1609/2800376 E-Mail: felix.donhofner@broadcom.com Website: www.broadcom.com	Broadcom is a global semiconductor leader with strong telecom roots and industrial solutions also for drones. Highlights include advanced ToF sensors with sub-mm precision, high ambient light immunity and up to 3kHz frequency, plus Optical Wireless Communication, GNSS, FBAR filters, encoders and optocouplers for next-generation UAV systems.
C369  csi	csi entwicklungstechnik GmbH Robert-Mayer-Straße 10 DE-74172 Neckarsulm Phone: +49/173/7341072 E-Mail: defence@csi-online.de Website: www.csi-online.de	As a trusted engineering partner, csi entwicklungstechnik delivers innovative, cross-industry and multidisciplinary solutions. The company provides comprehensive support in design, simulation, electronic system development & integration, as well as project management and digitalization. csi offers clients advanced expertise at every project phase.

EXHIBITOR	ADDRESS	DESCRIPTION
C369 	de Jonge GmbH Fuerther Straße 244a DE-90429 Nürnberg Phone: +49/911/669502 43 E-Mail: info@dejonge.ai Website: dejonge.ai/en	de Jonge GmbH develops energy-efficient inline AI for mission-critical industry & security/defence. EdgeBrain™ runs locally between sensor and host, with low integration effort and optional bidirectionally encrypted connectivity for hybrid setups. Focus: sensor upgrades, situational awareness.
E370 	Dr. Werner Röhrs GmbH & Co. KG Oberstdorfer Straße 11-15 DE-87527 Sonthofen Phone: +49/8321/614-0 E-Mail: info@roehrs.de Website: www.roehrs.de	Since 1919 we are supplying our recoil-springs to numerous manufacturers of small- and medium calibre guns. Our core capability is the development and production of springs made from profiled- or stranded-wire. For the evaluation of our weapon-springs we maintain a state of the art acceleration test-lab.
E370 	EOS GmbH Electro Optical Systems Robert-Stirling-Ring 1 DE-82152 Krailling/München Phone: +49/89/89336-0 E-Mail: events@eos.info Website: www.eos.info	EOS provides responsible manufacturing through industrial 3D printing. Since 1989, EOS has enabled customers worldwide to innovate via expert guidance, technology and services. As a leading partner for metal and polymer AM, EOS supports the full journey from strategy to production, accelerating time-to-market with efficient, sustainable solutions.
E370 	genua GmbH Domagkstraße 7 DE-85551 Kirchheim Phone: +49/89/991950-0 E-Mail: info@genua.de Website: www.genua.de/	genua GmbH is an enabler of digital transformation. We protect sensitive IT networks in the public and enterprise sectors, for critical infrastructure organizations and in industries with an obligation to maintain secrecy. Our solutions satisfy the highest security standards.

EXHIBITOR	ADDRESS	DESCRIPTION
C369 	goSmart GmbH Suedwestpark 25 DE-90449 Nürnberg Phone: +49/911/88187-959 E-Mail: contact@go-smart.de Website: go-smart.de	goSmart is a German-based technology company specialised in advanced wireless radio consultancy for industrial and defense customers, delivering premium professional services, comprehensive managed solutions, and high-quality trade goods through strategic reselling.
C369 	HP Medizintechnik GmbH Bruckmannring 34 DE-85764 Oberschleißheim E-Mail: info@hp-med.com Website: www.hp-med.com	HP Medizintechnik specializes in mobile solutions for the reprocessing of medical devices in demanding operational environments worldwide. The company develops and supplies mobile field autoclaves, mobile field sterilizers, and flexible reprocessing units for medical devices (RUMEDs), purpose-built for mobile and tactical deployment.
C369 	iprotex GmbH & Co. KG Kirchenlamitzer Straße 115 DE-95213 Münchberg Phone: +49/9251/89920 Website: iprotex.com/	We are German experts in advanced technical textiles. Our products are designed for safety-critical applications, providing reliable protection against heat and mechanical stress and are available as tailor-made solutions. Core production and engineering in Germany ensure top quality, supported by sites in Mexico, North Macedonia & Tunisia.
E370 	KLAUS Baier Werkzeugbau und Stanztechnik GmbH & Co. KG Rehbichler Weg 15 DE-87459 Pfronten Phone: +49/8363/9139-0 E-Mail: info@klausbaier.de Website: www.klausbaier.de	Dedicated to providing quality machining, engineering, tooling and assembly services through integrity and process. In the world of machining, stamping and assembling, KLAUS BAIER accompanies your product from development to series production you require.

EXHIBITOR	ADDRESS	DESCRIPTION
C369 	LR Pure Group Max-Prinstner-Straße 25 DE-92339 Beilngries Phone: +49/7152/603385-0 E-Mail: vertrieb@lr-pure.com Website: lr-pure.com/	LR Pure supplies customized, high-purity solutions for gas and fluid applications – the most complex geometries and highest loads. We offer full service from a single source, making our customers faster, safer, and ready for series production. This enables us to reliably support critical technology to SEMICON, Aero & Space, and DEFENCE industry.
C369 	Materna Virtual Solution Mühldorfstraße 8 DE-81671 München Phone: +49/151/68852880 E-Mail: marketing@virtual-solution.com Website: www.virtual-solution.com	SecurePIM is based on container technology and enables public authorities to communicate on the go at the classification level “restricted – for official use only” (VS-NfD) and at the security level NATO RESTRICTED. Materna Virtual Solution, a company of the Materna Group, is a market-leading software manufacturer with expertise in mobile security.
E370  Plastic housings - Membrane keypads - Acrylic glass products - Aluminium covers	mentec GmbH Au 27 DE-83362 Surberg Phone: +49/89/427229-0 E-Mail: mail@mentec.de Website: www.mentec.de	For more than 25 years we produce custom-designed plastic enclosures without tooling costs - even in small quantities at economical prices! We offer in-house design and prototyping as well as various functional elements such as membrane and rubber keypads, touch displays, aluminium fronts or exclusive products from our acrylic glass factory.
E370 	MORAI GmbH Luise-Ullrich-Straße 20 DE-80636 München E-Mail: office.germany@morai.ai Website: www.morai.ai	MORAI offers a digital twin simulation platform for the development and validation of autonomous systems and manned–unmanned teaming applications. It was founded in South Korea in 2018 and has been operating in Europe through its German subsidiary, MORAI GmbH, since 2024. MORAI supports ground and air applications as well as multi-domain scenarios.

EXHIBITOR	ADDRESS	DESCRIPTION
C369 	PID test & engineering GmbH Obere Länge 26 DE-97522 Sand am Main Phone: +49/9524/2961-0 E-Mail: info@pid.team Website: www.pid.team	PID is your agile development and testing partner for security & defense. As missions shift to networked, multi-domain operations, we help ensure complex systems interact reliably. We deliver end-to-end engineering, validation and test services—fast and traceable—across all relevant domains from lab to field.
C369 	REICH GmbH Industriestraße 1 DE-97638 Mellrichstadt Phone: +49/9776/64-261 E-Mail: marco.straub@reich-gmbh.com Website: www.reich-gmbh.com/en/products/defence	As an experienced system partner, REICH has been supplying the defense industry for decades with high-precision components and assemblies for: handguns, ammunition parts, and even special ball bearings for radar and air transport systems. • 100 years of company history • Made in Germany • approx. 825 employees • > 48,000 m² production area
E370 	Sill Optics GmbH Johann-Hölldfritsch-Str. 13 DE-90530 Wendelstein Phone: +49/9129/9023-0 E-Mail: info@silloptics.de Website: www.silloptics.de/en/	Sill Optics stands for the highest quality and innovation in photonics. We develop customized optical solutions - from the initial idea to the production-ready product. Our portfolio includes laser optics, telecentric lenses for image processing, aspherical lenses, and special optics for various industries, including aerospace and defence.
C369 	soffico GmbH Karl-Drais-Straße 4e DE-86159 Augsburg Phone: +49/821/455 901 00 E-Mail: info@soffico.de Website: www.soffico.de	soffico is a manufacturer of standard software for KRITIS and security-relevant industries. Orchestra meets the highest NATO standards. With Orchestra, we ensure the secure and redundant provision of data as a commercial off-the-shelf solution, interoperable in heterogeneous civil, dual-use, and military environments, even at the tactical level.

EXHIBITOR	ADDRESS	DESCRIPTION
E370 	Venturetec Rotating Systems GmbH Johann-Georg-Weinhart-Straße 2 DE-87600 Kaufbeuren Phone: +49/8341/9005-0 E-Mail: info@venturetec.de Website: www.venturetec.de/en	Venturetec Rotating Systems is a leading provider of customized slip ring and rotary joint solutions for demanding military power and data transmission applications. Leveraging years of experience in the defense industry, we provide our specialist products to a variety of clients worldwide. All our components are rigorously tested and approved.
E370 	Walaris GmbH Schopenhauer Str. 10 DE-90409 Nürnberg Phone: +49/911/36830656 E-Mail: contact@walaris.com Website: www.walaris.com	Walaris is a C-UAS solution provider that uses hardened artificial intelligence to fuse and process real-time data from sensor arrays. Walaris offers a proprietary computer vision AI software for the detection, classification and tracking of objects like drones. In combination with our C2 platform we fuse radar, RF and acoustic sensor data for primary detection with EO/IR camera streams for the verification of threats.
